EDUCATION :

MATRICULATION:
KARACHI BOARD

INTERMEDIATE:
ZIAUDDIN BOARD

GRADUATION:
BENAZIR BHUTTO SHAHEED
UNIVERSITY (Present)

SKILLS :

- C++, JavaScript
- HTML5, CSS3
- React Native (Expo)
- SQL, PostgreSQL
- Git & GitHub
- VS Code, Figma

PERSONAL APPEARANCE:

Father Name	Niaz Hussain
C.N.I.C#	42501-8060153-5
Religion	Islam
Nationality	Pakistani
Martial Status	Single

LANGUAGES:

English
Urdu

ABOUT ME :

Passionate and driven BS Computer Science student (currently in 6th Semester) with a strong foundation in Software Engineering, Artificial Intelligence, Cybersecurity, and Web Development. Adept at rapid prototyping and programming with practical experience building responsive cross-platform mobile applications and scalable systems. Possesses a robust understanding of modern database management, version control workflows, and UI/UX implementation. Eagerly seeking a challenging software engineering internship to contribute to real-world deployment pipelines.

KEY PROJECTS :

Dawai-Dost (Medicine Reminder App) :

React Native, Expo, Figma

- Designed and developed a comprehensive mobile application to help users manage and schedule medication routines.
- Implemented an intuitive UI with local push notification triggers ensuring highly accurate, time-sensitive alerts.
- Utilized Expo framework for rapid cross-platform deployment and component prototyping.

Food Rescue System :

Software Engineering Architecture, SQL

- Conceptualized and engineered a platform aimed at reducing food waste by connecting local donors with community distribution centers.
- Applied core Software Engineering paradigms, standard lifecycle models, and structured database design principles for optimal system reliability.

CERTIFICATIONS :

- **Google** Prompting Essentials Specialization
- Foundations of Cybersecurity | Introduction to AI
- Discover the Art of Prompting | Start Writing Prompts Like a Pro
- Design Prompts for Everyday Tasks | Maximize Productivity with AI Tools
- Speed Up Data Analysis & Presentation Building | Use AI as an Expert Partner
- **HubSpot** Digital Marketing Specialization
- **Saylor CS302** Software Engineering
- **Hugging Face** Agents Course – Fundamentals of Agents
